CIVIL-CRIMINAL PROCEEDINGS

Rev. Phillip R. Aguilar, one of National Minority TV, Inc.'s directors, pled guilty to section 273(d) of the California penal code (child-beating) on February 25, 1977 in Orange County Case No. C-37218. Rev. Aguilar was sentenced for no less than one year nor more than ten years for this felony conviction, and was incarcerated in Chino and Vacaville State Prisons from March 2, 1977 to April 28, 1978, when he was paroled.

Rev. Aguilar has since rehabilitated himself and now serves as the pastor of a 4000 member church, Set Free Fellowship, in Anaheim.

A complete statement concerning the facts and circumstances concerning this conviction were filed with the LPTV Branch on June 18, 1991, and that filing is herein incorporated by reference.

DISMISSED AND DENIED APPLICATIONS

DISMISSED AND DENIED APPLICATIONS

National Minority TV, Inc. (NMTV) has had a number of LPTV/TV translator applications dismissed or denied for technical deficiencies, or because NMTV participated in a lottery proceeding where one of the competing applications was chosen as the tentative selectee and ultimately granted.

In addition, NMTV filed an application on March 27, 1991 requesting authority to receive the assignment of WTGI-TV, Wilmington from Delaware Valley Broadcasters Limited Partnership (BALCT-910329AE). This application was submitted pursuant to an order of a U.S. Bankruptcy Court.

A Petition to Deny the application was filed alleging, inter alia, that NMTV is a "sham" organization and a "front" for Trinity Broadcasting Network; that Trinity Broadcasting Network engaged in false and misleading fundraising with respect to the assignment; that Rev. Aguilar "has not been fully rehabilitated, and is not the type of person the Commission can trust with a broadcast license;" that NMTV is not financially qualified; and, that NMTV did not report Rev. Aguilar's felony conviction in a timely manner.

The allegations were not acted upon by the Commission before NMTV dismissed its application on October 1, 1991, when the Order of the bankruptcy court expired and was not renewed.

Since NMTV is the licensee of a number of broadcast facilities, upon information and belief these allegations have been referred to the Commission's Complaints and Compliance Division for resolution.

In addition, Paul F. Crouch, the president and a director of NMTV, is also the president and a director of Trinity Broadcasting of Florida, Inc., the licensee of WHFT-TV, Miami, Florida. WHFT recently filed its renewal application, and two (2) petitions to deny the application were filed.

One petition, filed by the Spanish American League Against Discrimination, raised essentially the same allegations, i.e., that Trinity Broadcasting Network, of which Mr. Crouch is a principal, is committing "fraud" on the Commission.

A second petition to deny filed against the WHFT renewal requested the addition of the following issues:

1. To determine whether Trinity Christian Center of Santa Ana, Inc. d/b/a Trinity Broadcasting Network (TBN) and/or Paul F. Crouch exercises de facto control over National Minority TV, Inc.
2. To determine whether TBN and/or Paul F. Crouch abused the Commission's processes by using National Minority TV, Inc. as a subterfuge to evade Section 73.3555(d) of the Commission's rules.
3. To determine whether a grant of the WHFT renewal application would be consistent with Section 73.3555(d) of the Commission's rules.
4. To determine whether National Minority TV, Inc. falsely claimed minority preferences in LPTV applications filed in its name and whether such

false certifications were an abuse of the Commission's processes.

5. To determine whether National Minority TV, Inc., Paul F. Crouch and/or TBN lacked candor and/or misrepresented facts in an "Opposition to Petition to Deny" filed in the name of National Minority TV, Inc. on May 23, 1991 and/or its September 24, 1991 response to a Commission inquiry.
6. To determine whether National Minority TV, Inc. violated Section 73.3514 and 1.65 of the Commission's rules by failing to report the conviction of its director Phillip R. Aguilar of felony assault.
7. To determine whether National Minority TV, Inc. and/or Paul F. Crouch misrepresented facts and/or lacked candor concerning Crouch's knowledge of Phillip R. Aguilar's felony conviction.
8. To determine, in light of the evidence adduced pursuant to the foregoing issues, whether TBF, TBN or NMTV is qualified to remain a Commission licensee.

Since TBF has not yet responded to these petitions, the allegations still pend at the Commission.

EXHIBIT A

NONIONIZING ELECTROMAGNETIC RADIATION CALCULATION

Now that the FCC considers the possible biological effects of RF transmissions in its environmental determinations, the matter has been studied with respect to this Massena facility. Employing the methods set forth in *OST Bulletin No. 65*, and considering an effective radiated power of 5.4 kw (average main lobe visual ERP plus aural ERP [assumed to be 20 percent of peak visual ERP]), an effective antenna height of 97.5 meters above ground, and the vertical pattern of the antenna, maximum ground-level power density of 0.0010 mw/cm^2 is calculated to occur 53.6 meters from the base of the tower. Since this is significantly less than one percent of the 1.7 mw/cm^2 allowable radiation for a facility operating on Channel 20 (506-512 MHz), this facility may be excluded from consideration with respect to public exposure to nonionizing electromagnetic radiation.

Further, the station owner will take whatever corrective steps are necessary, such as power reduction, to ensure that workers operating in the vicinity of the antenna's aperture are not exposed to excessive nonionizing radiation.
